

# Security and Rule of Law

<b>Organisation</b> Ministry of Foreign Affairs, The Hague Budget Holder: RAM	<b>Publication Date</b> May 2020	<b>Reporting Period</b> reports received between 1 October 2018 - 30 September 2019
---	-------------------------------------	--

## Result area 1 - Human Security Security and Rule of law

**RESULTS**  
With the NL support to the Office of the Quartet, the tool developed to map the roads on the West Bank helped to facilitate the security coordination with the Israeli Security Forces to ensure quicker access to the area for service provision. So far, because of the discontinuation of US funding to USSC, the GIS-mapping is only used in limited areas (Nabulus), which unfortunately means limited general impact throughout the West Bank.

INDICATORS	Baseline	Target	Result	Source
ST_1.1.a Demonstrable changes in laws and policies that lead to more effective, accountable, inclusive, transparent and responsive security	NA	NA	Working on the GIS-mapping	4000000151

**Assessment of the results achieved across the entire result area 1**  
Assess achieved results compared to planning:  
Reasons for result achieved.  
Implications for planning.

D. Results achieved poorer than planned  
The hopes and expectations were that, by now, the GIS mapping would be used as a tool for security coordination in more areas. The financial situation of USSC made it impossible to extend beyond the pilot areas.  
In the current political situation (relations between US and Israel/PT), it is very difficult to plan ahead.

## Result area 2 - Peace Processes & political governance Security and Rule of law

**RESULTS**  
Dutch support in the area of reconciliation helped bring together several Israelis and Palestinians across the Green Line, in support of building a more conducive environment for peace building efforts. A number of mid-level influentials received high quality training in negotiations.

INDICATORS	Baseline	Target	Result	Source
ST_3.1.1.c) Number of people (f/m) trained in conflict resolution skills	0	100	8	4000000178

**Assessment of the results achieved across the entire result area 2**  
Assess achieved results compared to planning:  
Reasons for result achieved.  
Implications for planning.

B. Results achieved better than planned  
The target of 100 is a multi-annual target. The results of 8 can be attributed to the Dutch Funding. Reason for the good results are the connection to Harvard, collaborative and effective leadership; capacity to include influential individuals.  
N/a

## Result area 3 - Rule of Law Security and Rule of law

**RESULTS**  
Through the Sawasya program, most of the quantitative targets in terms of improving legal awareness, access to justice and providing legal aid were achieved. In the West Bank, staff of key legal institutions were trained to be more sensitive to the specific needs of women and children. Through support to NGOs such as MUSAWA and AMAN, the NL helped to make critical voices heard in the process of justice reform and stimulate accountability and inclusiveness. This resulted in increased access of in particular women with the number of beneficiaries sharply increasing.

INDICATORS	Baseline	Target	Result	Source
SP_[Old Resultsframework] No. of beneficiaries who have improved awareness of their rights and/or of how to address justice problems	0	0	2800	4000000259
ST_2.1.1 a) Number of beneficiaries (f/m) with access to justice (separate out: no. of women who present cases of sexual violence or domestic abuse)	N/A		9596	43478; 4000000259; 26428; 4000001716
ST_2.1.5 f) Number of perception studies and justice needs surveys conducted with NL support	NA	NA	10	28918
ST_2.2.1 d) Number of (formal/informal) justice institutions strengthened in terms of fairness, effectiveness, accountability or independence	NA	NA	1035	4000000825
ST_2.2.2 e) Number of inclusive law and policy reform initiatives advanced	NA	NA	1.5	4000001716; 4000000259

**Assessment of the results achieved across the entire result area 3**  
Assess achieved results compared to planning:  
Reasons for result achieved.  
Implications for planning.

C. Results achieved as planned  
For many of the activities carried out within Sawasya, the quantified outputs were reached as predicted. For support to watchdog NGOs, it is hardly possible to tell whether or not results are achieved. The impact of the activities depends heavily on political will. For example, there has been intensive advocacy on some presidential decrees that meant a further concentration of the power towards the executive, but it did not achieved the desired result.  
Keep on planning realistically and flexibly.
